BIRDS NESTING IN OUR HOME

Do you know if birds are nesting in our home?

It is generally seen that there is a connection between birds nesting and Vastu Shastra. Birds and squirrels often live in houses that are locked up in some sort of cramped building or inaccessible housing for some reason. These creatures are at ease there. But once the man enters there, he experiences some sort of paranormal feeling. He will dissolve that beautiful nest. In fact, the birds do not have to approach the nest with a strange sensation. Do we benefit from birds nesting?

Pigeons, sparrows and squirrels are the most common nesting creatures. They are said to have greater life force than man. These are thought to be capable of divine energy. It is therefore beneficial for man to have such creatures at home.

If evil forces were at home, these lives would not be there. This is a good sign. So do not seek to disperse the creatures like pigeons, squirrels, or sparrows in your home.

Previously they would have the paddles on the doorstep. This is because they believe that such bird species do not have them and stay home and bring good luck to the house.

Birding in a newly built home can bring good luck. Divine energy will spread throughout the house. Fire does not come close to us. How much do they spend and look at Vastu and build a new house. Therefore it is better not to dissolve the nest and get the sin.

If someone has done such things as Billy, Magic, and Evil, then the birds in the house will be the first victim. You can be wary of it. Not that the birds. Even pets, such as dogs and cats, have the power to protect you from evil spirits.

The sparrow species are special. These are often the ones who want to be with us. It has the potential to bring good forces into the home. With its life force, our home will be safeguarded from many problems. The disappearance of sparrow species today is a matter of pain. Due to urbanization, man is losing many good things. Feeding the living beings and preserving their livelihoods is a good thing and will not do any harm. So if the birds build a nest in your home, do not consider it as an abomination. If you are disturbed, take the nest to a tree and keep it tall.

Find your palms when you wake up?

We have to rub our palms, warm up eyes and then open our eyes slowly when we wake up in the morning. If you are for money, look at the fingertips, if you want knowledge look at

middle of the palm, and so on. And it also has a test, to confirm the percentage of result that you are going to achieve. That is by looking at the merging of Line of Heart of both palms and how best have they met with each other at the joining of both hands. We use hands are for washing, cooking, to carry weights and other type of work or to enjoy the joy. Hence, the hand is a material to solve difficulties in the past, and help the present and future. So, we see the palm in the morning as soon as one awakes.

When you walk up in the morning, as the first thing, keep both hand together (both palms opened so you can see the lines and together as if holding palm full of water) with edges of hands touching each other, and have a look at various locations in the palm to receive the result. On seeing this regularly all the inauspicious and evil signs are transformed into auspicious signs and we can even manage to escape from misfortune. Palmistry and astrology are sciences, which are interdependent on each other. Palmistry has some merit, which are relatively more helpful in prophesizing and predicting the future. No two people in this world can have similar palm prints. The palmistry is the exact birth chart of any man, which is never incorrect and false.

SAPTHAPATHI

What does it mean to walk seven steps around Agni during marriage?

In Sanskrit they call it 'Sapthapathi'. This means that the seven steps are going on with the groom and the bride. When the seven steps take place, the groom will pray to the woman that the Lord will help you!

"Under the First Step: Live Without Famine"

"Second Step: Live Healthy"

"Underneath the Third Step: Evangelicals Must Always Walk"

"Fourth underneath Step: to provide comfort and wealth"

"Fifth Step: Lakshmi should get full of kadaksham"

"Sixth Step: good seasons in the country to continue"

"Seventh Step: Dharmas should stand"

It is said to be bragging. Our ancestors have realized the most subtle psychological aspect of Hinduism in this tradition. When two people walk seven feet together, it is possible for them to feel in love. Within seven steps, we will either overtake them or go before them. We will not walk together seven steps completely.

When two humans walk together, the psychological changes that take place within them are seven steps.

We should enjoy it and feel that it is a formality in "our Hindu Dharma". There is nothing superstitious in Hindu Dharma. Hindu Dharma is full of many intricate scientific and psychological issues.

Sri Nambipillai Temple

Sri Nambipillai Temple belonged to the Vamanamalai monastery was located near the street where the Madurai Koodalajar Sannadi was located. About 50 years ago, a lodge was built by a nobleman and the tower was demolished. In order to recover this, Sri Appadurai Aiyangar (Koodalalakar Temple dominie) successfully sued the court for a 30-year battle as a legal man.

At the age of 83, Sri Appadurai Aiyangar is working tirelessly to go to court to restore the temple, the great couples are grateful to get some more Holy Service.
